

# Galli Theater

## School Shows

What better way to engage students? Through theater, children have the opportunity not only to hear the language, but to connect it with intriguing images and scenes. Our plays include thoughtful repetition through song and through the character's interaction with the audience. Don't miss this chance for your students to experience language come to life.

We bring theater to you! Our mobile theater company is proud to offer you a wonderful selection of fairytales that not only reinforce classroom learning, but are also a lot of fun.

Our fairytale adaptations are written by award-winning playwright and philosopher Johannes Galli. They are at once humorous and thought provoking. They integrate modern elements while transporting the traditional wisdom of the original stories.

Our actors engage the children and at times, invite them to come on stage and interact with them. Children are encouraged to help the characters, as well as to dance and sing along. Please inquire about our selection of German and French language shows.
